## PROJECTS

---

### Jobby App ([swathijobby.ccbp.tech](https://swathijobby.ccbp.tech)) :

Implemented Jobby App where users can log in and can see a list of jobs with search by Job title, filters based on Salary range and Employment type, etc.

- Implemented different pages like Login, Home, Jobs, Job item details using React components, props, state, lists, event handlers, form inputs.
- Authenticating by taking username, password and Persisted user login state by keeping jwt token in client storage, sending it in headers of further API calls to authorize the user.
- Implemented different routes for Login, Home, Jobs, Job item details pages by using React Router components Route, Switch, Link.
- Implemented filters and search text by sending them as query parameters to jobs API calls.

**Technologies used:** React JS, JS, CSS, Routing, REST API Calls, Local Storage, JWT Token, Authorization, Authentication.

### IPL Dashboard ([cricketsports.ccbp.tech](https://cricketsports.ccbp.tech)) :

Created a comprehensive dashboard for detailed view of IPL teams and matches.

- Used React Router for smooth navigation, displaying team information and details of matches with REST API calls.
- Implemented a 404 page for invalid routes.

**Technologies used:** React JS, Routing, REST API Calls, CSS, Bootstrap

### Food Munch ([foodpageswathi.ccbp.tech](https://foodpageswathi.ccbp.tech)) :

Developed a responsive website for Food Store where users can see a list of food items, detailed information about a food item and offers.

- Designed page using following HTML structure elements like li, header, article, footer elements and different bootstrap components to show different sections in the website and different bootstrap classes for responsiveness through mobile-first approach.

**Technologies used:** HTML, CSS, Bootstrap.

## ACHIEVEMENTS

---

- Achieved Congruex GRIT coin for Guts, Reliability, Improvement, Teamwork.
- Received EXCALIBURS AWARD for good productivity and quality of work.
